DETAILED ACTION

Terminal Disclaimer

1. The terminal disclaimer filed on July 29, 2009 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of copending Application No. 10/787,120 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

2. Claims 10 – 18, 20, 21, 24 – 32 and 38 are allowed.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

The instant application is allowed in view of the Terminal Disclaimer filed on July 29, 2009. In addition, prior art of record neither anticipates nor renders obvious the claimed subject matter of the instant application as a whole either taken alone or in combination, in particular, prior art of record does not teach "crystallizing the semiconductor film by irradiating a region of the surface with a second laser beam of a fundamental wave and the long beam at the same time while moving the surface relative to the long beam -wherein the first laser beam is a harmonic wave of a solid laser, and wherein the second laser beam is emitted from a continuous wave solid laser and the second laser beam is absorbed in the semiconductor film which is melted by the long beam," as recited in claim 10, "activating an impurity region formed in the semiconductor film by irradiating a region of the surface with a second laser beam of a fundamental wave and the long beam at the same time while moving the surface wherein the first laser beam is a harmonic wave of a solid laser, and wherein the second laser beam is emitted from a continuous

wave solid laser and the second laser beam is absorbed in the semiconductor film which is melted by the long beam," as recited in claim 11, "heating the conductive layer selectively to perform heat treatment of the semiconductor layer and the insulating layer by irradiating a region of the irradiated surface with a second laser beam of a fundamental wave and the long beam at the same time while moving the irradiated surface relative to the long beam, wherein the first laser beam is a harmonic wave of a solid laser, and wherein the second laser beam is emitted from a continuous wave solid laser and the second laser beam is absorbed in the semiconductor film which is melted by the long beam," as recited in claim 12, "crystallizing the semiconductor film by irradiating a region of the surface with a second laser beam of a fundamental wave and the long beam while moving the surface relative to the long beam, wherein the long beam is overlapped with the second laser beam at the region, wherein the first laser beam is a harmonic wave of a solid laser, and wherein the second laser beam is emitted from a continuous wave solid laser and the second laser beam is absorbed in the semiconductor film which is melted by the long beam," as recited in claim 20, "activating an impurity region formed in the semiconductor film by irradiating a region of the surface with a second laser beam of a fundamental wave and the long beam at the same time -moving the surface relative to the long beam wherein the long beam is overlapped with the second laser beam at the region, wherein the first laser beam is a harmonic wave of a solid laser, and wherein the second laser beam is emitted from a continuous wave solid laser and the second laser beam is absorbed in the semiconductor film which is melted by the long beam," as recited in claim 21.

Claims 13-18, 24-32 and 38 are also allowed as being directly or indirectly dependent of the allowed independent base claim.

Conclusion

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
